It’s in our core to adore nature

Our commitments

Choose me once, love me for life
We believe in a world where things last! For a lifetime, and longer. That’s good for you, and also for the planet. So our products carry a lifetime guarantee for domestic use, and a 10-year guarantee for commercial use.

Breathe healthy air
The GreenGuard Gold certification is recognised as one of the most stringent in the world, going beyond the A+ rating for indoor air quality. This means that your floor contributes to the healthiest environment for working and living, and protects the most sensitive people.

Sustainable cork underlay
Cork is a highly durable material. It retains its natural springiness even after years of use, while woods planted with cork oak reduce CO_2 emissions.

We can prove it
Don’t take our word for it, look at the proof! Coretec® meets the standards for numerous quality labels and certificates. Our floors are free of heavy metals (such as lead) and phthalates.

Second Life
So you’re changing your floor? Why not give the old Coretec® floor a second life! You can gift your old floor via Second Life Floors. Because your old floor is perfectly fine to start a new story in a new location.

Do your bit for forest conservation
There is no wood in a Coretec® floor. So no trees are cut down to make your home beautiful. More than that: we are active in forest conservation, worldwide.
